Preliminary

Publication of the Prospectus for Public Offer

Grameen One is the first Scheme of the Grameen Mutual Fund One that has been established as a Trust under the Trust Act, 1882, and registered with the Sub-Registrars Office under the Registration Act, 1908, on May 09, 2001. The Fund has received Registration Certificate from the Securities and Exchange Commission on August 28, 2001 under the Securities and Exchange Commission Act, 1993, and the Securities and Exchange Commission (Mutual Fund) Rules, 2001, made thereunder and has also received consent for issuing Prospectus for Public Offer. A complete copy of the approved Prospectus of the Public Offer is available for inspection at the registered office of the Fund.

Approval of the Securities and Exchange Commission

“CONSENT OF THE SECURITIES AND EXCHANGE COMMISSION HAS BEEN OBTAINED TO THE ISSUE/OFFER OF THE SECURITIES UNDER THE SECURITIES AND EXCHANGE ORDINANCE, 1969, AND SECURITIES AND EXCHANGE COMMISSION (MUTUAL FUND) RULES, 2001. IT MUST BE DISTINCTLY UNDERSTOOD THAT IN GIVING THIS CONSENT, THE COMMISSION DOES NOT TAKE ANY RESPONSIBILITY FOR THE FINANCIAL SOUNDNESS OF THE FUND, ANY OF ITS SCHEMES OR THE ISSUE PRICE OF ITS SHARE OR FOR THE CORRECTNESS OF ANY OF THE STATEMENTS MADE OR OPINION EXPRESSED WITH REGARD TO THEM, RESPONSIBILITY FOR WHICH LIES WITH THE ASSET MANAGER, TRUSTEE, SPONSOR, CUSTODIAN AND/OR AUDITORS.

IT IS, HOWEVER, THE SECURITIES AND EXCHANGE COMMISSION’S RESPONSIBILITY TO ENSURE THAT FULL AND FAIR DISCLOSURES ARE MADE IN THE PROSPECTUS IN TERMS OF THE MUTUAL FUND RULES, 2001, SO THAT THE INVESTORS CAN MAKE INFORMED INVESTMENT DECISIONS.”

Listing of the Scheme

Application shall be made to both Dhaka and Chittagong Stock Exchanges within 9 (nine) days of the issue of the Prospectus for listing of the Scheme for dealing on the stock market and for their quotation on the Stock Exchanges.

If, for any reason, the application for listing is not accepted by both of the Stock Exchanges within 6 (six) weeks of the closure of the subscription, allotment of units shall be void, and the Fund shall refund the subscription money within 30 (thirty) days from the expiry of 6 (six) weeks of closing of the subscription list.

Issuance of securities in dematerialized form

As per provisions of the Depository Act, 1999, and regulations made thereunder, the units of the Scheme shall be issued in dematerialized form only and for the purpose, the Fund has signed an agreement with the Central Depository of Bangladesh Ltd. (CDBL). Therefore, all transfers, transmissions, and splitting or conversions will take place only under the CDBL system.

Chapter 2

BACKGROUND

Background of initiating a close-end mutual fund

The mutual fund is sponsored by the Grameen Bank principally to facilitate micro-savers to invest in the country's capital market instruments. Although this Fund has been launched primarily for the benefit of the 4.3 million borrowers of Grameen Bank, 96% of whom are women, other micro- and small savers of the country may also find this team-managed, close-ended balanced Fund a dependable investment vehicle.

AIMS of Bangladesh Limited, the first SEC-approved asset management company in Bangladesh, pioneered mutual fund under private initiative. It has gained valuable experience and confidence in managing a mutual fund efficiently. This encouraged Grameen Bank to give responsibility to AIMS to manage this mutual fund sponsored by the Bank. The SEC has already approved and registered the Trust as a Mutual Fund, and provided consent to raise subscription from the investors through Public Offer.

The vision of Professor Mohammad Yunus, founder of Grameen Bank, was to create a dependable financial instrument for the poor clients of Grameen Bank, as well as the poor people of the country, to connect them with the macroeconomy, give them ownership in the leading enterprises, and take advantage of the growth of the economy. Not only the poor borrowers of Grameen Bank would be investing in their own income-generating activities, they may also be part of owners of the promising enterprises of the country. By owning units of the Mutual Fund, they can also build their own old-age protection. Grameen Mutual Fund has been created to fulfill this dream. This Fund would enhance the earning potential of the savings of the poor savers by linking them with the national capital market in a structured and transparent way. It would also encourage other rural savers to take advantage of this new financial opportunity.

Competitive Advantages in investing in Grameen One

- Mutual funds substantially lower the investment risk of small investors through diversification in which funds are spread out into various sectors, companies, securities as well as entirely different markets. It is always the objective of a fund manager to maximize a fund's return for a given level of risk through a tolerable risk-return tradeoff.
- Mutual funds mobilize the fund and channel them into profitable investment opportunities. As a result, mutual funds add liquidity to the market. Moreover, given that the funds are long-term investment vehicles, they reduce market volatility by extending support to scrip prices.
- Mutual funds provide the institutional investors an access to the whole market that, at an individual level, would be difficult if not impossible to achieve.
- Because funds are professionally managed, investors are relieved of the emotional strain associated with the day-to-day management of the fund. Moreover, the amounts of analytical research and study that go into selecting the best securities

for a fund portfolio can prove to be overwhelming for the general investor, and is best left to the experts.

- The investor saves a good deal of transaction costs given that s/he has access to a larger number of securities by purchasing a single unit of a mutual fund.
- The investor can pick and choose a mutual fund to match his/her particular needs.
- Mutual fund is the only vehicle that operates simultaneously both at the demand as well as the supply side of the market. On the supply side, mutual funds, being itself a listed security in the Stock Exchanges, introduces a good and reliable instrument in the capital market for the small but astute investors. Mutual fund units have been one of the most sought-after scrips. On the demand side, since mutual fund investments are primarily in the secondary market stock and bonds bought at the Stock Exchanges, the demand for blue chip shares thus increases with the operation of the mutual funds.
- Mutual funds are one of the most strictly-regulated investment vehicles. The laws governing mutual funds require exhaustive disclosure to the SEC as well as the general public. The laws also entail continuous regulation of fund operations by the Trustee.
- Professional fund managers search for the attractive assets and securities. They do all the footwork to uncover opportunities and research them to make sure that the investment is appropriate for the fund. The fund's stated goal, or investment objective influences the choice of securities.
- Another benefit of mutual fund is liquidity, the ability to move money in and out of the investment. Unlike fixed deposits or CDs, where money is tied up for a period of time, mutual funds are designed so that access or exit is easy.

Chapter 3

THE FUND

Establishment

Grameen One is the first scheme of Grameen Mutual Fund One, a trust property registered on May 09, 2001 under the Trust Act, 1882, and Registration Act, 1908. The SEC has registered the Trust as a Mutual Fund on August 28, 2001 under the Securities and Exchange Commission (Mutual Fund) Rules, 2001. The SEC has also approved the Scheme and provided consent on June 27, 2005 to raise subscription from the general investors through public offer.

The life of the Scheme is 10 (ten) years from the date of first listing, although there is circumstances set out in the Trust Deed where the unitholders can extend the life on maturity of the tenure.

Close-end policy

The Scheme will adopt a close-end policy in its operation. In compliance with the policy, the Scheme will not change the capital position by issuing any additional units or repurchasing existing units during the life (i.e. 10 years) of the Scheme.

Face value and market lot

The face value of the units of the Scheme is fixed at Tk10 (taka ten) and since there would be no paper scrip issued against any holding, no market lot is necessary and, therefore, for trading at the Stock Exchanges under the CDS mechanism one unit of Tk10 each shall comprise the tradable market lot. However, minimum application amount for Public Offer application shall be for 500 (five hundred) units amounting Tk5,000 (taka five thousand) and its multiples on a single BO account of the CDS.

Investment objectives and policy

The primary objective of the Scheme is to achieve capital appreciation as well as earn dividend and interest income through investment in the capital market of Bangladesh. It mostly shall focus on generating cash earning and at the same time preservation of capital. The assets of the Scheme will be invested both in equity securities and fixed-income securities (FIS). Most of the equity investments will be made in the companies listed on the DSE and/or CSE. The Scheme may also invest in unlisted equity securities directly from the issuers (IPO and pre-IPO placement) at the primary market. The Scheme may also invest in the listed and/or unlisted debt instruments, including government notes and bonds.

The principal investment objective and policies of the Scheme as set out above will, in the absence of unforeseen circumstances, be adhered to during the life of the Scheme. The Scheme will always adopt the investment policy that will ensure the *balanced* nature that is being contemplated.

The details of the investment policies are as follows:

- a) The Scheme shall invest only in securities and investments approved by the SEC, the Bangladesh Bank and/or the Controller of Insurance of Bangladesh or any other competent authority in this regard.

- b) All money collected under the Scheme, except FIS investments, shall be invested only in transferable securities whether in money market or equity market or privately placed debentures or securitized debts.
- c) Generally not more than 25% of the assets will be invested in the fixed-income securities (FIS).
- d) FIS investment may be made in privately placed unquoted debt or depository instruments of different terms.
- e) The equity portfolio will be a growth-value blend basket of large-cap as well as small-cap stocks.
- f) In order to increase the profit potential, the manager will have the flexibility to use market timing to move between stocks and FIS in any percentage they deem prudent when investment conditions change.
- g) The Scheme will seek to invest in companies, which it considers to exhibit good growth potential and have sound management.
- h) The AMC shall categorize the investments either as 'Trading Securities' or as 'Available-for-Sale Securities' as they deem prudent, as per provisions of IAS-39 corresponding to the Statement of Financial Accounting Standard (SFAS) No. 115 of Financial Accounting Standard Board, USA.
- i) Capital appreciation will be the primary consideration and dividend and interest income will be the secondary consideration for the trading-security investments.
- j) Dividend and interest income will be the primary consideration and capital appreciation will be the secondary consideration for the available-for-sale security investments.
- k) During periods in which the Investment Manager believes changes in economic, financial or political conditions will adversely affect the Scheme's portfolio, the Scheme may, for temporary defensive purposes, reduce holdings in equity and other securities and invest in short and/or medium-term debt securities or hold cash.

The investment objective of the Scheme may be changed by the Trustee and the AMC. However, unitholders would be notified of any material change in the Scheme's objective.

Transaction Policy

- a) The AMC will make the investment decisions and place orders for securities to be purchased or sold by the Scheme.
- b) The AMC will choose prime corporate broker(s) for the purchase and sale of securities for the Scheme's portfolio.
- c) The primary objective of the AMC in choosing broker(s) will be to obtain the most favorable net results taking into account such factors as price, commission, execution and the degree of skill required of the broker(s). The capability and financial condition, integrity and reputation of the broker(s) shall also be a criterion for the choice of that particular broker.
- d) AMC can transact in securities of the portfolio of the Scheme for any amount through any number of brokers other than the prime brokers, if the AMC deems prudent, considering the prevailing market environment.

- e) Transactions requiring physical settlement shall be through the Custodian of the Scheme.
- f) The Scheme shall buy and sell securities on the basis of deliveries and shall, in all cases of purchases, take delivery of securities and in all cases of sale, deliver the securities on the respective settlement dates as per the custom and practice of the stock exchanges and shall in no case put itself in a position whereby it has to make short sale or carry forward transaction or engage in *badla* finance.
- g) The AMC shall get the securities purchased and transferred in the name of the Scheme, where investments are intended to be of long-term nature.

Investment restrictions

The following restrictions are fundamental policies of the Scheme that may not be changed without approval of majority of the Scheme's outstanding voting securities. These are also in line with the Section-56 and the Schedule-V of the Securities and Exchange Commission (Mutual Fund) Rules, 2001. If a percentage restriction on investment or use of assets set forth below is adhered to at the time a transaction is effected, later changes of holding value due to changes in market price movement or accrued gain in value over time will not be considered a violation of the restrictions.

- a) The Scheme shall not invest in securities having unlimited liability.
- b) The Scheme shall not buy its own units.
- c) Investments by way of privately placed debentures, securitized debts and other unquoted debt instruments shall not exceed 25% (twenty five percent) of the total assets of the Scheme.
- d) The Scheme shall not invest more than 10% (ten percent) of its assets in any one particular company shares.
- e) The Scheme shall not own more than 15% (fifteen percent) of any company's paid-up capital at any point of time.
- f) The Scheme shall not invest more than 20% (twenty percent) of its total assets in the shares, debentures or other securities of a single company.
- g) The Scheme shall not invest more than 25% (twenty five percent) of its total assets in shares, debentures or other securities in any one industry.
- h) The Scheme shall not involve in option trading or short selling or carry forward transactions.
- i) The Scheme shall not invest in or lend to another scheme under the same AMC.
- j) The Scheme shall not provide term loan or advance to any entity.
- k) The Scheme shall not borrow fund for investing unless authorized by the SEC.

Investment management

AIMS of Bangladesh Limited shall conduct the day-to-day management of the Scheme's investment portfolio as the Asset Management Company (AMC). Subject to the provisions laid down in the Trust Deed and the Investment Management Agreement, the AMC will have discretionary authority over the Scheme's portfolio.

Investment style

The manager will adopt both fundamental and quantitative investing approach for the Scheme. As quantitative approach has a few definite benefits like discipline, more predictable return, continuity in the case of portfolio manager change, risk management and control etc, the manager will adopt the approach especially in allocating assets. In picking up individual stocks, the manager will adopt fundamental approach as the manager thinks the approach to be more harmonious to the local market conditions. The manager will also adopt technical analysis (use of charts) for identifying trend reversals in the market and timing the investments accordingly.

The manager will adequately and thoughtfully diversify the portfolio so that the Scheme can achieve required returns, assuming below market-average risk. 'Active' investment method, which involves the buying and selling of securities based on economic, financial and market analyses and investment judgment, will be adopted by the Scheme.

Borrowing policy

As per the Rules, the Scheme is not permitted to borrow to finance investments or to advance any term loan or guarantee term loan for any purpose. However, if the SEC withdraws or relaxes these restrictions during the life of the Scheme, it may well opt for borrowing, if necessary, from any legal source at a competitive rate with the consent of the Trustee.

Distribution policy

Distribution policy of the Scheme has been planned emphasizing the interest of the small investors. The AMC has appointed selected branches of the Bankers-to-the-Issue concentrating in the urban and off-urban regions for facilitating subscription from the general investors. AIMS of Bangladesh Limited shall also complement the efforts of broader dissemination through its network. However, no commission, including seal commission, shall be paid to any one for distributing the subscription applications.

Dividend policy

- i. The accounting year of the Scheme shall be July to June fiscal year immediately following the year of listing.
- ii. After the close of annual accounts, the Trustee, as appears appropriate, shall declare dividend.
- iii. The Scheme shall distribute at least 90% (ninety percent) of the 'Annual Income'³ of the Scheme, as dividend, at the end of each accounting year.
- iv. No dividend may be declared or paid other than from earnings of the Scheme, available for distribution.

³ Before deriving the annual income and declaring dividend, the Fund shall provide for depreciation on investments, appropriate provision for investment, and also make a provision for bad and doubtful investments to the satisfaction of the Auditors and shall create a DER and an provisional FISIR by appropriation from the income of the Fund.

- v. Surpluses arising simply from the valuation of investments may not be available for dividend.
- vi. Dividend warrants will be dispatched within 30 (thirty) days from the declaration of such dividends.
- vii. A transfer of unit shall not pass the right to any dividend declared thereon before the registration of the transfer.

Valuation policy

The Scheme intends to determine its NAV per unit no less frequently than the close of business on the last business day of each month by dividing the value of the net assets of the Scheme (the value of assets less liabilities) by the total number of units outstanding. Details of the valuation policy are as under:

- a) In valuing the Scheme's assets, the closing price or average price, if available, of securities quoted on the last trading day of the month at DSE.
- b) When the securities were not traded on the particular valuing date at DSE, the closing price quoted at CSE on that particular valuing date would be taken into account in valuing such securities.
- c) When the securities were not traded either at DSE or CSE on the particular valuing date, immediate previous closing price, which one is nearer, but not longer than 90 (ninety) days, to the valuing date will be taken into account.
- d) When the securities were not traded either at DSE or CSE for a period for over 90 (ninety) days, securities will be valued considering the value derived by multiplying the respective EPS of the last available reported year with the sector PE multiple or the cost price (acquisition value) of the securities, which one is lower.
- e) In case of listed bond or debenture valuation, last quoted closing price at DSE will be taken into account.
- f) The valuation of non-listed securities will be made by the AMC with their reasonable value and approved by the Trustees and commented upon by the Auditors in the Annual Report of the Scheme.
- g) Once non-listed securities are valued, the valued amount will be considered for purpose of valuing the Scheme's assets at any interval of time until the securities are further revalued by the AMC and the Trustee.
- h) The AMC and the Trustee shall ideally value the non-listed securities at three month intervals.
- i) In case of investment in long-term debt instruments or fixed deposit, accrued interest for the period up to the date of valuation will be taken into account for the purpose of valuation of assets of the Scheme.
- j) In case of deferred expenses, accrued expenses for the period will be taken into account for determining total liabilities.

Following the valuation criteria as set forth above, the Scheme will use the following net formula to derive NAV per unit.

$$\text{Total NAV} = V_A - L_T$$

$$\text{NAV Per Unit} = \frac{\text{Total NAV}}{\text{No. of Share}}$$

V_A = Value of all securities in hand + Value of all securities placed under lien + Cash at hand and bank + Value of all securities receivables + Receivables of proceeds of sale of investments + Dividend receivables, net of tax + Interest receivables, net of tax + Issue expenses less amortized for the period + Printing, publication and stationery expenses less amortized for the period = Value of Total Assets of the Scheme for the Period.

L_T = Value of all securities payable + Payables for purchase of investments + Payables with respect to brokerage and custodial charges + All other payables with respect to printing, publication and stationery + Accrued deferred expenses with regard to trustee fee, annual fee, audit fee, and safe keeping fee = Total Liabilities of the Scheme for the Period.

Redemption policy

The unitholders of the Scheme will be fully redeemed at maturity unless the life is extended by the unitholders. The policies pertaining to redemption are described below:

- a) If three-fourths of the unitholders do not decide otherwise at the closing meeting called for the purpose, the Trustee of the Scheme will declare full redemption. The unitholders may authorize the Trustee and/or the AMC or any other person to take steps for winding up of the Scheme.
- b) The Trustee and/or the AMC or the person authorized shall dispose of the assets of the Scheme concerned in the best interest of the unitholders of the Scheme. After making appropriate provision for meeting the expenses connected with such winding up, the balance shall be paid to the unitholders in proportion to their respective interest in the assets of the Scheme as on the date when the decision for winding up was taken.
- c) Within 30 (thirty) days from the completion of the winding up, the Trustee shall forward to the Commission and the unitholders a report on the winding up containing particulars such as circumstances leading to the winding up, the steps taken for disposal of assets of the Scheme before winding up, expenses of the Scheme for winding up, net assets available for distribution to the unitholders and a certificate from the Auditors of the Scheme.
- d) After the receipt of the report, if the Commission is satisfied that all measures for winding up of the Scheme have been completed, the Scheme shall cease to exist and the SEC shall notify the Trustee in writing about the winding up.
- e) Redemption Warrant will be dispatched to the unitholders within 7 (seven) working days from the date of such notifying letter from the SEC.

Additional measures to improve profitability

Investment in the primary market: The Fund shall appropriately focus on primary market (IPOs) especially on private placements. Accordingly the AMC shall maintain good network with the merchant banks.

Investment in unlisted securities: The Fund shall explore opportunity to invest in high-yielding unlisted securities. To this end, the AMC shall maintain contact with venture capitalists like the Grameen Fund for bankable referrals. Also the AMC shall actively seek out prospective companies that is in need of capital.

Delayed payment of expenses: To provide the Fund Manager with a considerable leeway to manage the portfolio that would expectedly improve earning potential to some extent, the Fund may increase the size of its available fund for investment through delaying payments of management and trusteeship fees.

Chapter 4

RISK PARAMETERS

Risk Factors

The prospective investors should appreciate that investment in the Scheme involves certain special considerations and risk factors, including those set forth below, which are not necessarily exhaustive or mutually exclusive:

- (a) Performance of the Scheme is significantly dependent on the macroeconomic situation and the capital market in particular.
- (b) Since the capital market of Bangladesh is extremely fluctuating, there is no firm assurance that the Scheme will achieve all its stated objectives.
- (c) Stock market activity in Bangladesh focuses on a small number of companies representing a limited number of industries, resulting in a potential lack of liquidity and price volatility. In addition, a high proportion of the equity securities listed on the DSE and CSE are closely held and the number of shares currently available for acquisition by the Scheme may be very limited. It may, therefore, be difficult to invest the Scheme's assets, to obtain a desired diversification of the portfolio or to realize the Scheme's investments at the prices and times that it would wish to do so.
- (d) The recent stock market trends portray that price of almost all the listed securities move in tandem with the market in the similar direction, causing difficulty to the Manager to diversify the assets.
- (e) Since Bangladesh lack secondary bond market or product variation as it would have been ideal, the Manager might not be able to swap between different asset classes, as they might desire.
- (f) Money market instruments are also not readily available, which may narrow the opportunity of short term or temporary investments of the Scheme.
- (g) If maturity of the Scheme is extended by the unitholders at the closing meeting, investment in fixed income securities will be subject to reinvestment risk, i.e., the risk of non-availability of investment opportunity at the current rate at that time.
- (h) The value of the units of the Scheme may, in direct correlation with other listed securities, fluctuate. In addition, there is no guarantee that the market price of units of the Scheme will fully reflect their underlying net asset values.
- (i) Since the Scheme is a balanced fund, i.e., the Scheme shall invest in both equity and FIS, the credit risk of the FIS issuers is also associated with the Scheme.
- (j) Despite careful selection of stocks, the companies may fail to provide expected dividend or make timely disbursements, which may affect the return of the Scheme.

- (k) The value of the Scheme's assets may be affected by uncertainties such as political or social instability, or changes in any law or regulations of the territory.
- (l) Since unlike the older mutual funds in the market, mutual funds under the SEC (Mutual Fund) Rules, 2001 are not allowed to have access to short-term borrowing, the Fund may have to meet its cash needs including dividend payments or meeting pre-IPO placement investment commitments through disposing off its investments, even at unfavorable market conditions. This may greatly curtail the earnings as well as future reinvestment capabilities of the Fund, translating to lower profit.
- (m) Qualitative and quantitative investment restrictions imposed through the Rules, have restricted the operational leeway of the Fund Manager, in the event of only a handful of securities qualifying as Category-A at the stock exchanges. Since the older mutual funds in the market do not have such qualitative and quantitative restrictions, ceiling of all these restrictions have created an uneven playing field.
- (n) Although application will be made to the DSE and CSE for the units for listing, there is no assurance that the units will be listed with the bourses. In the unlikely event of non-listing by both the exchanges, the Scheme will be redeemed prematurely causing opportunity cost to the investors.
